Signs with smart connectivity for Better road safety

The screenshot displays the Node-RED web interface in a browser. The address bar shows the URL `127.0.0.1:1880/#flow/693f5e1e2296af90`. The interface includes a left sidebar with a 'filter nodes' search bar and two categories of nodes: 'common' and 'function'. The 'common' category is expanded, showing nodes like 'inject', 'debug', 'complete', 'catch', 'status', 'link in', 'link call', 'link out', and 'comment'. The 'function' category is also visible. The main workspace, titled 'Flow 1', contains a sequence of nodes: an 'inject' node, a 'timestamp' node, a 'debug 1' node, and a 'catch: all' node. The right sidebar shows the 'config' tab with a list of flows, including 'On all flows' and 'Flow 1'. The bottom of the image shows the Windows taskbar with the search bar, task icons, and system tray information including temperature (30°C), weather (Haze), and time (02:51 PM, 18-11-2022).
